

A B S T R A C T

The method of recording audiovisual contents broadcast according to a schedule includes:

- 5 - a step of selecting from an access terminal an audiovisual content to be recorded associated with a broadcast date and time, and
- a step of the access terminal receiving a record file of the selected audiovisual content, said file
- 10 containing information identifying the audiovisual content and the scheduled date and time for broadcasting it.

It further comprises:

- a preliminary step of the access terminal
- 15 selecting a set of contents having a common topic, said set being offered by an audiovisual content presentation server, which then selects the audiovisual content automatically on the basis of the set selected; and
- a step of updating the record file, especially in
- 20 the event of modification of the audiovisual content selected by the presentation server.
